Lignite in Syria.

Coal, in the ordinary sense of the word, does not exist in Syria, but there are beds of lignite containing traces of vegetable organisms. The principal beds are in the Mettu; that of Cornaell, which has been worked; and in the district of Jezzine, those of Niha and Hailtour to the east of Sidon. This is very extensive but shallow and close to the surface. At Jezzine amber, yellow and black, is abundant.—Christian Science Monitor.

Blunders of Novelists.

Baroness Orczy, in "Petticoat Government," makes the crescent moon rise over the far eastern sky at 11 o'clock on a June evening; and Miss Stevens, in "The Veil," credits her full moon with rising and setting in less than three hours! But, toughest of all bulls, is that created by Miss Marie Corelli, when, in her "Treasure of Heaven," she tells of somebody "bringing home eight Highland bull-heifers from pasture."—London Chronicle.

Magellan's Famous Voyage.

On the 27th of November, in 1520, Ferdinand Magellan, the Portuguese navigator, entered the Pacific ocean through the straits which bear his name. He navigated the ocean for three months and twenty days without finding a single island. During the voyage the weather was so fair continually that he gave the ocean the name of Pacific.

Some Moniker!

Speaking of names, as the Nomad has been in recent issues, we once read of an English baby being christened "Actsoftheapostles Kennett." Which is some moniker, you'll admit. No doubt it was considerably abbreviated later, and it is not difficult to imagine the lad's mother exclaiming in a moment of exasperation: "Actso, how can you act so?"

The Hangar.

Many people think that the airplane word "hangar" is an affection and is the late adoption of a French word. A look into the Standard dictionary will reveal the fact that Thackeray uses the word and that it means a shed, not primarily a place to hang a dirigible.—Harford Courant.

Value of Training.

The value of systematic physical training for executives is being recognized by industrial concerns throughout the country. It is well known that exercise for those whose work does not normally provide it makes for efficiency and little loss of time through illness.

Sea's Depth Told by Bomb.

For measuring sea depths a Massachusetts doctor has invented a dynamite bomb which explodes on striking the bottom, the distance being estimated by measuring the time it takes the sound to reach the surface of the water.

NOTICE

I hereby give notice that my wife Elinor Cummings, having left my bed and board without just cause or provocation, I will pay no bills contracted by her on and after June 16, 1926. 51-1p Wesley Cummings.

Booze Is Not a Good Cure

From the Ames Iowa Intelligencer When a man comes to you all doubled up with pain and declares he will die in your presence unless you procure him a drink of whiskey, send him to a doctor or else give him a dose of Chamberlain's Colic and Diarrhoea Remedy. There is a mistaken notion among a whole lot of people that booze is the best remedy for colic and stomach ache—adv.

"I Got Real Mad When I Lost My Setting Hen," Mrs. Hannan.

"I went into the hen house one morning and found my favorite setter dead. I got real mad. Went to the store, bought some RAT-SNAP and in a week I got six dead rats. Everybody who raises poultry should keep RAT-SNAP."

LEGAL NOTICES

STATE OF MICHIGAN—The Probate Court for the County of Gratiot. Estate of Ammi W. Wright, Deceased. Willis T. Knowlton and Lester A. Sharp, surviving executors of said Estate have filed in this Court their Final Account, and the same will be heard at the Probate Office on the 25th day of June, 1926, at eight o'clock in the forenoon. All persons interested are requested to be present on that day and show cause, if any, why the same should not be allowed. Dated June 1st, 1926. 50-4 J. Lee Potts, Judge of Probate.

WHY

Highland Park Subdivision?

Why do scores of people spend Sundays and week days at Bass Lake in cottages and picnic dinners away from the hot and noisy city?

Why did the State Camp for Y. W. C. A. choose Highland Park at Bass Lake this year for their summer camp?

Why do people come past a dozen lakes and spend the day at Bass Lake?

Why does everybody feel safe to go in bathing in this beautiful lake?

There's a Reason

Bass Lake is situated within reach of everyone. Michigan State Pike direct from Alma, and direct from Edmore. Lots of natural shade. Good drinking water. The finest bathing beach in Central Michigan, gravel shores, no dropping off places. You and your family can live cheaper, longer and more comfortable. Take your lunch basket and spend a day at the lake.

Cut This Out and Take It with You A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.

How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surface of the system. Sold by druggists for over forty years. Price 50c. Testimonials free. T. J. Cheney & Co., Toledo, Ohio.

DECK PAINT

Especially desirable for floors, walls and woodwork in the kitchen, laundry and bath room. Withstands hot or cold water and steam. Wears like iron. May be scrubbed with soap and water.

The lighter shades are just the thing to brighten up dark stairways, halls, pantries and other rooms.

Throtling Governor Gives Steady Speed

Every "Z" Engine is equipped with a sensitive throtling governor. Regulates the amount of fuel and air admitted to cylinder—maintains uniform speed—summer or winter, regardless of work being done.

Throtling governor enables the "Z" to use kerosene as well as gasoline—saves you money.

Governor is a complete, high grade assembly unit—not a makeshift device. Its case-hardened contact-parts resist wear.

Has mighty important duties: Helps maintain uniform cylinder temperature—insures better lubrication—gives smooth, steady flow of power that saves wear and tear on driven machinery.

Other "Z" features are: Built-in Bosch high tension oscillating magneto; more than rated power; every part interchangeable; clean-cut, efficient design; long-lived endurance:
